

Become a Research Ribbon Level Sponsor!

Everyday we witness how cancer can invade a person's life and weigh on their mental, physical, and financial well-being. It takes a team of support to guide a person through their journey in hopes of recovery and healing. A major part of that team is research. By attending or sponsoring Komen Charlotte's [Promise, Research, CURES! Luncheon](#), you are investing in education, hope, and change, which are all powerful tools in finding the cures for breast cancer.

What is a Research Ribbon Sponsor? When you purchase a table at this year's luncheon, you will provide an opportunity for you and 7 other guests to learn about the fascinating advancements taking place in breast cancer research. Approximately 250 survivors, co-survivors and key community stakeholders will attend this elegant plated luncheon and presentation.

Komen Charlotte invites doctors, scholars and researchers to educate the community and encourage support to help fund groundbreaking research efforts. We are also proud to show how North Carolina is making a contribution to breast cancer research and how those contributions are benefitting individuals in our 13-county service area.

Your generous gift of \$300 will sponsor one (1) table at the luncheon. Please let us know if you would like us to fill your table, and we will accommodate. To secure a sponsorship and/or luncheon tickets contact Jacquaya Reel, j.reel@komencharlotte.org or 704.347.8181. Thank you for your support!

As a Research Ribbon Level Sponsor you will receive:

- company or individual's name on Komen Charlotte website
- company or individual's name on posters at event and luncheon program
- complimentary attendee tickets or table (8 guests) with table sign

[Purchase tickets here](#)

Susan G. Komen Charlotte focuses on breast health education, screenings, diagnostics and treatment support services for uninsured and underinsured women and men in a 13-county service area. Each year, Komen Charlotte invests 75% of net revenue to local community health programs and 25% to breast cancer research. Since 1997, more than \$15M has been awarded in local community health grants and \$5.7M to research.

Our Mission:

Save lives by meeting the most critical needs in our communities and investing in breakthrough research to prevent and cure breast cancer.
